

Start

```
graph TD; Start([Start]) --> Step1[Click Register / Open Student Portal]; Step1 --> Step2[Enter: name, student ID, year, gender, photo]; Step2 --> Step3[Submit registration code provided by admin]; Step3 --> Step4[Set account password]; Step4 --> End([End]);
```

The flowchart illustrates a five-step registration process. It begins with a 'Start' terminal, followed by four process steps: clicking the register button, entering personal information, submitting a code, and setting a password. The process concludes at an 'End' terminal.

Click Register / Open
Student Portal

Enter: name, student ID,
year, gender, photo

Submit registration code
provided by admin

Set account password

End
