

Start

```
graph TD; Start([Start]) --> A[Contract Determines Winners  
President → Secretary → 5 GMs]; A --> B[On-Chain Finalization  
Winners Written → Phase Reset]; B --> C[Sync Snapshots → is_winner set]; C --> D[Frontend Checks Wallet and Shows Banner]; D --> End([End]);
```

The flowchart illustrates a five-step process for determining winners and displaying a banner. It begins with a 'Start' terminal, followed by a process box where the contract determines winners (President → Secretary → 5 GMs). This is followed by 'On-Chain Finalization' (Winners Written → Phase Reset), then 'Sync Snapshots' (is_winner set), and finally 'Frontend Checks Wallet and Shows Banner'. The process concludes at an 'End' terminal.

Contract Determines
Winners

President → Secretary → 5
GMs

On-Chain Finalization

Winners Written → Phase
Reset

Sync Snapshots →
is_winner set

Frontend Checks Wallet
and Shows Banner

End
